

Event announcement

Title: MIPRO 2012, 35th International Convention, Opatija, Croatia, May 21-25

During the 35th International Convention of Information Communication Technology, Electronics and Microelectronics MIPRO 2012, which is supported by DG INFOSO, ERIC and Croatian Ministry of Science, Education and Sport, it will be organised an research infrastructure dissemination event - RIDE.

RIDE is an exhibition of posters and multimedia presentations of running ESFRI projects. It aims to highlight initiatives, possible needs for additional efforts, and developing a vision of open science and strategy for Horizon 2020.

RIDE targets following areas:

- eInfrastructure Cluster/Grid/Cloud
- eScience technologies
- Earth and Environmental Science
- Energy infrastructures and systems
- Engineering, Physical Sciences
- Material science and nanotechnology
- Biological and Medical Sciences
- Analytical Facilities
- Social Sciences and Humanities
- Vision 2020-Action Plan

We invite you to present your achievements and projects' goals. The organiser arranges exhibition booths and provides all relevant services.

For detail please contact RIDE chairman Dr. Karolj Skala, RIDE@mipro.hr.
